Template - centos-4-i386-minimal

# route -n

Kernel IP routing table

Destination	Gateway	Genmask	Flags	Metric	Ref	Use	Iface
72.18.###.###	0.0.0.0	255.255.255.255	UH	0	0	0	venet0
72.18.###.0	0.0.0.0	255.255.255.0	U	0	0	0	eth0
169.254.0.0	0.0.0.0	255.255.0.0	U	0	0	0	eth0
0.0.0.0	72.18.###.1	0.0.0.0	UG	0	0	0	eth0

This being a very new install, I prefer not publishing my IP

I can confirm that venet0 matched the IP I have in the VEID.conf. If it is needed, then I would prefer PMing when needed.
