Hello,

/usr/lib64/ruby/gems/1.8/gems/rake-10.4.2/lib/rake/rdoctask. rb:4: ERROR: 'rake/rdoctask' is obsolete and no longer supported. Use 'rdoc/task' (available in RDoc 2.4.2+) instead. (RuntimeError)
from /usr/lib/ruby/site_ruby/1.8/rubygems/custom_require.rb:31:in `gem_original_require'
from /usr/lib/ruby/site_ruby/1.8/rubygems/custom_require.rb:31:in `require'
from /opt/ovz-web-panel//script/cron_runner:11

After my installation, got this error from the webinterface.
Is there any way to fix this?

Thank you.
