I copied the containers from the private directory to the backup server.
Now we need the data from the container. I try to mount and get an error. How to solve this problem???

[12:28 ]-[root@h2]-[~/backup_s1]
#ploop mount private/105_back/root.hdd/DiskDescriptor.xml
Opening delta /root/backup_s1/private/105_back/root.hdd/root.hdd
