Hello Vasily, thanks a lot for your answer;

I already did an update of the vzctl environment ;

uname -a
Linux vpsh2.servidoraweb.net 3.10.0-862.20.2.vz7.73.25 #1 SMP Thu Dec 20 15:51:48 MSK 2018 x86_64 x86_64 x86_64 GNU/Linux

vzctl --version
vzctl v.7.0.193-1.vz7

Anyway the problem reamins there;

vzpkg create cache ubuntu-16.04
Creating OS template cache for ubuntu-16.04 template
Error: Error: Got signal 11

Damn!
