Wow, that's scary - I have this in my boot directory:

```
-rw-r--r-- 1 root root 1408100 Dec 5 23:30 initrd-2.6.9-023stab032.1-smp.img
-rw-r--r-- 1 root root 1273754 Oct 19 17:14 System.map-2.6.9-023stab032.1-smp
-rwxr-xr-x 1 root root 10529921 Oct 19 17:16 vmlinux-2.6.9-023stab032.1-smp
-rw-r--r-- 1 root root 2637165 Oct 19 17:14 vmlinuz-2.6.9-023stab032.1-smp
```

I have no idea how this vmlinux got in there...

Oh, well I updated the grub config and will try to reboot later tonight and will let you know!

Thanks!
