currently using:

Linux main-node-14.*mydomain*.com 2.6.9-023stab037.3-enterprise #1 SMP Wed Dec 13 19:46:33 MSK 2006 i686 i686 i386 GNU/Linux

Server dies frequently. I never had this issue until recently, the server is dieing about 2 times per day for no reason.

I am using hypervm and they said to contact you.

Thanks
