take a look at fs/simfs.c, function quota_get_stat()

I suppose you are interested in 2 if's:

```
if (buf->f_bfree < free_blk)
    adj_blk = free_blk - buf->f_bfree;

if (free_blk < buf->f_bavail)
    buf->f_bavail = (long)free_blk; /* min(f_bavail, free_blk) */
```
