vzctl start 101

Warning: distribution not specified in CT config, using defaults from /etc/vz/dists/default
Starting container ...
Container private area /vz/private/101 does not exist

vzctl create 101

Warning: CT config file already exists, not applying a default config sample.
It might lead to incomplete CT configuration, you can use --applyconfig to fix.
Creating container private area (centos-5)

vps-download WARNING: no public gpg key security@openvz.org found,
disabling signature check. To import the public key, see
Package_signatures#Importing_the_public_key

vps-download ERROR: template centos-5 not found!
Cached OS template /vz/template/cache/centos-5.tar[.gz|.bz2|.xz] not found
Creation of container private area failed
