Hi,

I just discovered problems when using srptables on a bridge the veth of
the VE and the eth of the hw-node are connected to.

is there anything known about arptables and OpenVZ ??

Thank you

Fabian

what kind of problems?
AFAIR arptables are simply not included in binary kernel.
did you recompile it yourself?

Kirill

I am out of the office until Tuesday 26th September 2006.

Please contact our team via the following for any issues relating to a hosting account:

Billing - billing[at]transnexis.com
Domain Renewals/Transfers/Registrations - domains[at]transnexis.com
Sales - sales[at]transnexis.com
Support - support[at]transnexis.com (24/7)

If you have any queries please contact Damien Ransome via damien@transnexis.com, and for problems with technical support please email Daniel Pop via daniel@transnexis.com.

For anything else I will get back to you as quickly as possible when I return.

Regards,

Andrew Cranson

Kirill,

.....
> did you recompile it yourself?
Yes, i did.
Unfortunately the options for arptables are spread, so i missed the
correct configuration with the first try :-(

Correctly building the kernel helped a lot ;-)

Thanks for your support.

Fabian
