
Subject: Openvz Template > OpenSuse - Yast Bug?
Posted by [Maffi](#) on Wed, 04 Dec 2013 18:56:02 GMT
[View Forum Message](#) <> [Reply to Message](#)

Guten Abend liebe Community,

ich benutze folgendes Opensuse Template:
download.openvz.org/template/precreated/suse-12.3-x86_64.tar.gz

Jedesmal wenn ich dort Yast starte und auf "Software" > "Software Management" gehe und das durchlaufen lasse, kommt irgendwann die Meldung:

```
UI Syntax Error
Couldn't load plug-in ncurses-pkg
Check the log file!
```

In dem Logfile (/var/log/YaST2/y2log) steht folgendes:

```
013-12-04 13:31:42 <1> srv05(2164) [ui] YPath.cc(YPath):67 Looking for: libyui-ncurses-pkg.so.4

Bin mir aber eigentlich Sicher das "ncurses-pkg" installiert ist ... Ist das ein Fehler vom Template?
Oder bin ich einfach nur zu dösig? ;D

Hoffe mir kann jemand helfen :?

Hi Maffi,

ich habe das Problem damit gelöst.

zypper search ncurses

und danach

zypper install libyui-ncurses-pkg4

Danach funktioniert das Yast bei mir.

Grüße feuerjinn
