We are receiving lots of errors on console about e1000e.
See attachment for console output.

OPENVZ kernel:
#uname -a
Linux hwn01.mangelot.nl 2.6.32-042stab090.5 #1 SMP Sat Jun 21 00:15:09 MSK 2014 x86_64 x86_64 x86_64 GNU/Linux

E1000E version:

#modinfo e1000e | grep version
version: 2.3.2-k
srcversion: 9565A5B6270D1BB6C45742B
vermagic: 2.6.32-042stab090.5 SMP mod_unload modversions

latest version available: e1000e-3.1.0.2.tar.gz

Is it save to upgrade te kernel drivers like this bugfix on openvz.
