Guys,

i'm trying to install the latest OpenVZ ISO bare-metal image on my dedicated server using IPMI,

i mount the ISO and all is well, till the installation reaches the graphical install step "Starting Installer, One Moment", then its just a black screen.

HW Info
Processor// Intel E3-1240v3
Memory// 32GB DDR3 RAM
Storage// 2x 120GB SSD

Hello!

Boot in expert mode and add "nomodeset" option in command line.

Tell us if that worked.

Have a nice day.
