https://download.openvz.org/virtuozzo/releases/openvz-7.0.6- 509/x86_64/iso/
I have tried with different isos but the same message again and again.

Nice thanks for fixing this. It seems that the fix is in version 7.0.6-514 . See below "Fixed in openvz-iso-7.0.6-514 by adding the missing packages."
https://bugs.openvz.org/browse/OVZ-6955
Where can we download this fixed version iso?
Karsten
