Does anyone know where the precreated templates for openvz 7 can be found ?

This page https://openvz.org/Download/template/precreated has a warning:
These templates are for OpenVZ 6 (legacy). For OpenVZ 7, refer to user guide.

But then when clicking on the users guide there doesn't appear to be a list of precreated templates for OpenVZ 7
https://docs.openvz.org/openvz_users_guide.webhelp/_managing _templates.html

I believe you're expected to use the EZ template system:
