Hello,

I may have scruwed someting up?
212 is not showing up, it says it is stopped (but it is running)

```
 prlctl list
UUID                                    STATUS       IP_ADDR        T  NAME
{3a6bd8e1-1fed-490d-be37-3b4bea56df62}  running      5.22.xxx    CT 206
{5dad28f8-aac7-4195-ad13-cf85e26bf8d2}  running      5.22.xxx    CT 213
{1b38e4cd-a4c1-4359-842c-8150ab408737}  running      5.22.xxx    CT 232
{77ffb987-c9e1-4972-9cb3-fd59bb14bd4b}  running      5.22.xxx    CT 234

[root@node5 ~]# prlctl list 212
UUID                                    STATUS       IP_ADDR        T  NAME
{b591aa5f-89ea-4316-ba50-3ba19b173144}  stopped      5.22.xxx    CT 212
```

if i run vzctl it is working

[code][
```
 vzlist
                      CTID      NPROC STATUS    CFG_IP_ADDR     HOSTNAME
                       206        40 running   xxx    server6.xxx
                       212       104 running   xxx    server12.xxx
                       213       356 running   xxx    server13.xxx
                       232       305 running   xxx    server32.xxx
                       234       351 running   xxx    server234.xxx
```
/code]

Im getting emails from pcompact

```
 /usr/sbin/pcompact -t 2h -q >/dev/null
```

Failed to get VM config: The virtual machine could not be found. The virtual machine is not registered in the virtual machine directory on this server. Contact your Virtuozzo administrator for assistance.
prlctl return non-zero code 65280

Any idees how to fix this?
