commit eab03ac7bd3e0da99eb9dc068772a85a5e3f3577 aka
"[PATCH] Get rid of /proc/sys/proc" was good commit except strace(1) compile
breakage it introduced:

system.c:1581: error: 'CTL_PROC' undeclared here (not in a function)

So, add dummy enum back.
