The patch titled
    merge-sys_clone-sys_unshare-nsproxy-and-namespace-fix
has been removed from the -mm tree. Its filename was
    merge-sys_clone-sys_unshare-nsproxy-and-namespace-fix.patch

This patch was dropped because it was folded into
merge-sys_clone-sys_unshare-nsproxy-and-namespace.patch

Subject: merge-sys_clone-sys_unshare-nsproxy-and-namespace-fix
From: Andrew Morton <akpm@linux-foundation.org>

There's just less and less excuse for this sort of thing.
