on Hardware node or VE?

check /etc/mtab and/or /proc/mounts for an idea of what your fstab should look like

Rick

on the hardware node i can paste the contents of those files.

/etc/mtab
/dev/sda1 / ext3 rw 0 0
/dev/proc /proc proc rw 0 0
/dev/sys /sys sysfs rw 0 0
/dev/devpts /dev/pts devpts rw,gid=5,mode=620 0 0
/dev/shm /dev/shm tmpfs rw 0 0
/dev/sda3 /vz ext3 rw 0 0
none /proc/sys/fs/binfmt_misc binfmt_misc rw 0 0
sunrpc /var/lib/nfs/rpc_pipefs rpc_pipefs rw 0 0

/proc/mounts
/dev /dev tmpfs rw 0 0
/dev/root / ext3 rw,data=ordered 0 0
/proc /proc proc rw 0 0
/proc/bus/usb /proc/bus/usb usbfs rw 0 0
/sys /sys sysfs rw 0 0
/dev/devpts /dev/pts devpts rw 0 0
/dev/shm /dev/shm tmpfs rw 0 0
/dev/sda3 /vz ext3 rw,data=ordered 0 0

none /proc/sys/fs/binfmt_misc binfmt_misc rw 0 0
sunrpc /var/lib/nfs/rpc_pipefs rpc_pipefs rw 0 0

Try something like this:

/dev/sda1 /   ext3 defaults 1 1
/dev/sda3 /vz   ext3 defaults 1 2
devpts /dev/pts   devpts gid=5,mode=620 0 0
tmpfs /dev/shm   tmpfs defaults 0 0
proc /proc   proc defaults 0 0
sysfs /sys   sysfs defaults 0 0
none /proc/sys/fs/binfmt_misc binfmt_misc defaults 0 0

Absolutely no guarantee that it is correct. It's based on my own HN /etc/fstab (CentOS 5 x86_64) as well as your /etc/mtab output.

Tomas
