Hi Pavel,

I am rebasing the ipv6 patchset for the net-2.6-netns.

There are some parts missing in the current git tree, like
net/core/neighbour.c.

Are you fixing that with the rebase of ipv4 ?

Ok, I will work with a temporary patch in the meantime.

Thanks
 -- Daniel

They are in progress now. I need 1-2 days to complete with this, Dave
has accepted my patch with FIB rules and this have some impact on
original Eris's code

Regards,
Den

We have just rebased current work to latest Dave's tree + added next
portion of Eric's patches.

Regards,
Den

Excellent.

Who is federating the patchset ? I mean, to who should I send to patches ?

To Denis. Cc to me.

Thanks,
Pavel
