Hi,
I've a stupid question.
What are the differences between /var/lib/vz/root/101 and /var/lib/vz/root/101 ??

Seems that contains the same datas

What are the differences between /var/lib/vz/root/101 and /var/lib/vz/root/101 ??

Seems that contains the same datas
Seems like they are the same path as well but I get it.

I am pretty new to openvz but as far as I understand when VE101 not is running, ../root/101 is empty and when running ../private/101 gets mounted there to provide a full distro. Makes sense.

Hi!

hope you'll find the Vasily's explanation useful:
