Anyone having time issues if your running an AMD processor?

Mine is speeding up on the only opteron we have.

Founda few notes over it.

fast_system_clock_error#The_clock_problem

http://www.ussg.iu.edu/hypermail/linux/kernel/0505.1/0033.ht ml

Wondering if this can be something fixed in the kernel?

I'm using the stable kernel at this time.

2.6.8-022stab076.1-smp

Think i figured it out, had to do with the irqbalance running.

Stopped that and everything seems ok.

if irqbalance didn't help, try kernel boot option 'clock=pmtmr'
