Hellom

May I ask any plan to support latest kernel 2.6.13?
since some hardwares do not support in kernel 2.6.8, like ICH7

Thanks a lot.
George.

We are going to update support for new hardware. ICH7 will be supported by new libata driver, we'll include it into our next kernels.

Thank you,
Vasily Averin

May I ask any tentative schedule?

Thanks & Regards,
George.

The best case estimation is 5 working days.
The worst case is 8-9 working days.

sorry, answered to Vasya, not you...

The best case estimation is 5 working days.
The worst case is 8-9 working days.

and another correction:
5 days for getting ICH7, not 2.6.13

libata driver updated in 022stab044 kernel to correspond to our HCL published for commercial virtuozzo.
kernel will be available tomorrow evening or in the worst case on Monday.
