Hello

ppp is already usable inside a VE, I guess.

Does this path
http://download.openvz.org/kernel/branches/2.6.18/028stab053.14/patches/patch-ovz028stab053.14-combined.gz already contains that feature?

TIA,
Nuno

Actually no. The patches attached are not yet accepted.

I think we'll make PPP right for mainstream net namespaces,
just like sctp (http://bugzilla.openvz.org/show_bug.cgi?id=400)
