The agenda is posted at
http://wiki.openvz.org/Containers/Mini-summit_2008. The second part
(from 11:30am-2pm eastern time) is resource management, and cgroups and
libcg are listed as topics. The moderators for the resource management
section are Paul Menage, Balbir Singh, and Dhaval Giani, and I

understand they've been corresponding about the agenda, so updates may
be forthcoming.

Absolutely.

No, that is only to join in person.
