I am desperate looking for VZ-Admin control panel for OpenVZ, but I can't find a way to buy it. Does anybody knows how to contact the authot of VZ-Admin?

I have seen some german VPS providers with this control panel, and in my opinion is awesome!

Regards,

Amando Blasco

It seems to have gone away. Check out http://wiki.openvz.org/Control_panels for other options.

Jim

Yes, I have seen it's not longer available. I wonder if anybody knows how to contact the author of the control panel, as I would like to further develop it, if it's possible.

Regards,
Amando

Hi,

Here a list of some control panel for openVZ:
http://wiki.openvz.org/Control_panels

As you can see the VZadmin homepage (http://www.ronny-goerner.de/)is down. This package could be deprecated.

I am using now HyperVM (not is totally free) but i am happy, and is look-like. I install it in master-server and their works with openVZ is really amazing

Regards,
Victor A.
