Hi everyone
have a look here: http://www.ronny-goerner.de
please download a version if you want and try it yourself.
my toolkit doesn´t need any rootrights as other pieces of code i´ve seen here. everything is managed by a sql-database and some cronjobs

enjoy
Regards
Ronny

Thanks! I have put your suse-9.3 template to http://download.openvz.org/contrib/template/precreated/.

Speaking of control panel, are you interested in hosting your panel sources in our GIT (or probably subversion) repository?
