Subject: OpenVZ Bandwidth Project

I am searching for a solution that will enable me to monitor and keep track of OpenVZ VPS container bandwidth usage.

Google took me to a discontinued OpenVZ-Bandwidth-1.0 project, discussed here:
http://forum.openvz.org/index.php?t=msg&goto=1341#msg_13 41

Using the links on this page, I was able to download the CentOS container image but all of this is useless without the Bandwidth.sh script.

Does anyone happen to have this script?

Thanks!

Hi,

search in my OpenVZ scriptorium found it and posted at OpenVZ wiki for history:

-> http://wiki.openvz.org/Monitoring_bandwidth_of_containers

Hope that helps anybody.

Bye,
Thorsten

You rock!!

I searched and searched for this but wasn't able to come across it. Thank you so much.
