I configure one brigde to get internet but i got this error:
RENETLINK answers: File exist

I do this:

brctl addbr br0
ifconfig eth0 0
brctl addif br0 eth0
ifconfig br0 192.168.1.125 netmask 255.255.255.0
ip route add default via 192.168.1.1 dev br0
ifconfig eth0 192.168.1.105 netmask 255.255.255.0
ifconfig venet0 192.168.1.125 netmask 255.255.255.0
vzctl start 777
vzctl set 777 --netif_add eth0 --save
vzctl exec 777 ifconfig eth0 192.168.1.105 netmask 255.255.255.0
brctl addif br0 veth777.0
vzctl exec 777 ip route add default via 192.168.1.1 dev eth0
RTNETLINK answers: File exists
vzctl enter 777
entered into VE 777
[root@test /]# ping google.com
ping: unknown host google.com

how can I fix this?

Quote:# vzctl exec 777 ip route add default via 192.168.1.1 dev eth0
RTNETLINK answers: File exists

This tells you there is already such a route, see output of ip route list.

Quote:[root@test /]# ping google.com
ping: unknown host google.com

This tells you nothing but the fact that the resolver can not find an IP for DNS name google.com. It can be caused by e.g. nameserver absent from /etc/resolv.conf or unreachable.
