I'd like to attend that call, Skype ID: stgraber

Depending on how many people are going to attend and where they're from,
I might be able to provide a conf number.

I asked my company (Revolution Linux) and we can use our 1-800 number
for the call. I can also invite people from other countries as long as
they are on landline.

9:30am central is a bit early for me as I tend to arrive at the office
around 10am central (9am eastern).

I'm usually around from 9am eastern to 11:30am and 12:30pm to 5:30pm.
Monday being usually quite busy so would like to avoid if possible :)

I guess it might be useful to have a list somewhere (wiki ?) of people
who'd like to attend with availabilities and timezone.
