[root@e*** ~]#
```

_____

I can't update to the newest round of CentOS updates :/ (on any servers)

Skip openvz repo on the command line or temporarily disable it in your openvz's repo config file.

Also, try cleaning yum cache first.

welp, that seemed to fix it and now i feel stupid. Thanks

(clearing cache)

I had the same problem. "yum clean all" fixed it for me.
